

FAITH & SCIENCE FUNDAMENTALS

This webinar series is intended for those who have questions about the relationship between two apparently distant concepts: religious faith and scientific knowledge. Are they opposed? Completely independent? Compatible? Complementary? Christians believe that God is the author of the Bible and the creator of nature and so, knowledge drawn from these two sources should always be in harmony. But that does not seem to be the case. Or is it?

These are the types of issues we will deal with during this series of webinars. Once a week for sixteen weeks we will explore the main issues of the faith-science debate, focusing especially on one of the most controversial topics: **Origins**.

WHEN?

Wednesdays from January 27 to May 12, 2021
19:30-20:15 CET (18:30 WET; 20:30 EET)

WHAT?

The content of this webinar series is divided in four sections:

- 1- Science
- 2- Models of Origins
- 3- Biology and Design
- 4- Rocks, Fossils and the Flood

Each section contains four webinars. The specific titles and dates for each webinar are available on our Facebook page GRI Live Creation.

FOR WHOM?

This is a basic course on Faith and Science recommended for **teachers, pastors, students,** and any other person interested in this topic. No previous knowledge is needed.

HOW?

The webinars will be offered through Zoom Webinar in **Spanish** and **English**.

Other European languages will be available depending on demand.

Attendance to the webinars is free but it requires registration. Please register at:

https://zoom.us/webinar/register/WN_60Zx02CKSWeXY8MkLxYwQA

The Spanish version of the webinars will be streamed live through YouTube on our channel GRI Live Creation. Anyone can access them without registration.

WHO?

Dr. **Noemí Durán**, director of the European Branch Office of the **Geoscience Research Institute**

FAITH & SCIENCE FUNDAMENTALS

WEBINAR SERIES

DATES AND TOPICS:

SECTION 1

SCIENCE

- 27 JAN: What is this Thing Called Science?
- 03 FEB: Science and Truth
- 10 FEB: God's two Books
- 17 FEB: Scientists, Christians and Creationists

SECTION 2

MODELS OF ORIGINS

- 24 FEB: The Theory of Evolution
- 03 MAR: Theistic Evolution
- 10 MAR: Intelligent Design
- 17 MAR: Biblical Creationism

SECTION 3

BIOLOGY AND DESIGN

- 24 MAR: Complexity and Interdependency
- 31 MAR: DNA and Design
- 07 APR: Epigenetics and Pre-adaptation
- 14 APR: Natural Selection and Altruism

SECTION 4

ROCKS, FOSSILS, AND THE FLOOD

- 21 APR: Flood Geology
- 28 APR: What Do Fossils Tell Us?
- 05 MAY: Dinosaurs
- 12 MAY: Hominid Fossils

REGISTRATION:
